WORK EXPERIENCE

Senior Full Stack Engineer, Founding Member

December 2025 - Present

Trackzio | Bengaluru, India | December 2025 - Present

- Lead full stack engineering for multiple production mobile applications including Banknote AI, Coinzy, and Rockzy, coordinating React Native, Android, backend, and dashboard teams.
- Architected a white-label Experts platform using Node.js, Express.js, MongoDB, Redis, REST APIs, Socket.IO, and AWS S3, with branded admin and expert dashboards deployed per product.
- Developed and released Banknote AI for Android and iOS using React Native and TypeScript, including camera-based identification, Google Play Billing, Apple StoreKit, Firebase Cloud Messaging, and APNs.
- Scaled Banknote AI to 40,000+ downloads, 7,000+ daily active users, 4.3+ store rating, and a catalogue of 25,000+ banknotes.
- Built an internal product analytics dashboard using Firebase, Google BigQuery, Node.js, and React covering 10 KPIs, conversion funnels, retention, and cohort LTV.
- Implemented CI/CD with GitHub Actions and Docker, and operated AWS production infrastructure for APIs, media storage, and scheduled jobs.

Software Engineer

November 2024 - December 2025

JCentrix Private Limited | Noida, India | November 2024 - December 2025

- Developed poornasatya.com, a food product comparison web application, using Node.js, Express.js, Angular, MySQL, TypeORM, Redis, JWT authentication, and AWS.
- Engineered Afford Plan hospital reporting modules in Java 17, Spring, Hibernate 6, and MySQL, including monthly SOC reports with date, facility, and department filters.
- Led migration of Afford Plan from Java 8 to Java 17 and Hibernate 4 to Hibernate 6, resolved REST API defects, and optimized SQL queries for large monthly datasets.
- Established CI/CD pipelines with Jenkins, GitHub Actions, and Docker, and supported Openbravo ERP documentation and client enhancements.

Junior Software Engineer

August 2023 - November 2024

Orage Technologies Pvt. Ltd. | Noida, India | August 2023 - November 2024

- Built and deployed job4jobless.com using Java, Spring Boot, Angular, and MongoDB on CentOS Linux.
- Implemented Node.js microservices for OTP, chat, and Firebase authentication, and developed a remote desktop Java service for production use.

Full Stack Developer

September 2021 - August 2023

JAS Tech IT Solutions | Jaipur, India | September 2021 - August 2023

- Designed user interfaces in Figma and implemented responsive websites using Angular, HTML, CSS, and WordPress.
- Delivered Shopify and Magento e-commerce implementations and developed Java Spring REST APIs for client applications.
